Battery Recharging:

- Note Adult operations suggested
- Gently pull out the cover of the Micro-USB port on the right side of the watch.
- Insert the included Micro-USB cable (small end) into the Micro-USB port on the watch.
- Insert the large end of the Micro-USB cable on your computer or to a standard USB power outlet adapter
- Once the connection is successful, you will see a battery-charging symbol appear on the watch screen.
- When the battery is fully charged, the charging icon will stop animating and the battery symbol on the screen will show full.
- When the battery is fully charged, disconnect the charger from the power outlet first, then disconnect the watch from the charger cable.
- The battery strength icon on the status bar will scroll until the device is fully charged.

Note:

Please charge your watch before you use it. It takes approximately 1 hour to fully charge the battery.

Battery Notice:

Misuse of batteries can lead to them bursting, causing a fire or chemical burns. Please read the following precautions:

- Do not disassemble the battery.
- Do not crush and do not expose the battery to any shock or force such as hammering, dropping, or stepping on it.
- Do not expose to high temperatures or place near a heat source.
- Do not leave in direct sunlight.
- Do not dispose of in a fire.

- Do not handle damaged or leaking batteries.
- Keep the battery out of the reach children.
- Keep the battery dry.

Splash Proof for Everyday Play:

- Do not put the watch under running water.
- Do not submerge under water. Not suitable for showering, bathing, or swimming.
- Keep the cover of the Micro-USB port closed tightly while it is not in use in order to prevent any water getting in the watch.
